TAMPA, Fla., Oct. 31 /PRNewswire-FirstCall/ -- Wolf Professional Risk, Inc. a wholesale brokerage firm, announced today that it would begin utilizing the (i-bind)(SM) technology system to procure management liability insurance for private company and not-for-profit risks in Florida. The firm will offer directors and officers (D&O) liability, employment practices liability (EPL), and fiduciary liability insurance on a mono-line or package basis for Florida-domiciled risks with \$100 million or less in annual revenues and 1,500 or fewer employees. Limits of up to \$10 million are available on either a shared or separate basis.

Coverage will be provided on an admitted basis and underwritten through Darwin Professional Underwriters, Inc. (Darwin) (NYSE: DR) on Darwin National Assurance Company (DNA) paper. DNA has earned an AM Best Company rating of "A- (Excellent)."

Boyd H. Wolf, president and CEO, stated, "We are very pleased to partner with Darwin to offer this product within Florida's professional liability marketplace. Darwin's proprietary (i-bind) system allows us to take advantage of the very latest in technology, dramatically shortening the underwriting lifecycle and improving the service and responsiveness we provide to our independent agent clients. This is truly one of the overall best products available in the marketplace today."

### **ABOUT DARWIN AND (i-bind)(SM)**

Darwin is a specialty insurance group based in Farmington, Connecticut. The company is focused on the professional liability insurance market and underwrites directors and officers ("D&O") liability for public and private companies, errors and omissions ("E&O") liability insurance, and health care liability insurance. Darwin member companies include Darwin Professional Underwriters, Inc., Darwin National Assurance Company (DNA), and Darwin Select Insurance Company (DSI).

Darwin is traded on the NYSE Arca exchange under the ticker symbol, "DR." The company became NYSE Arca's first listed company with its initial public offering on May 19, 2006.

(i-bind)(SM) is an Internet-based, proprietary underwriting system developed by Darwin that allows agents and brokers to complete an application on-line, receive a quote or indication, generate a

proposal to an insured, and bind coverage from any computer, 24/7. Agents and brokers can also forward an electronic version of the (i-bind) application directly to the applicant. An entire end-to-end insurance transaction is reduced to minutes, as (i-bind) returns a competitive, bindable quote immediately for qualifying risks.
